

Health Information Translational Services

Indiana University – IUPUI

Indianapolis, Indiana

Architectural Services: Higher Education & Lab Renovation

Project Summary:

The Health Information and Translational Services Building consisted of a tenant build out space in an existing facility located on the campus of Indiana University/Purdue University (IUPUI) in Indianapolis, Indiana.

The design included approximately 8,000 square feet of office space located on two floors for the Indiana University School of Medicine. High standards of building materials, finishes, and support systems were required to reflect the state of the art existing building components previously used in other interior spaces. Building security was required due to the nature of documents utilized for the individual departments.

Also included was the use of high tech audio/visual components required in the conference areas. A mix of private offices and open areas utilizing system furniture components were used to achieve the program requirements of the departments.

Cost of construction was approximately \$800,000.

Key Elements:

- Office Build-Out
- Cost of construction: \$800,000
